

GDS® View™ 13.3" Touch Screen Monitor

The GDS® View™ 13.3" touchscreen monitor features VESA hole patterns compatible with RAM-2461U and RAM-D-2461U mounting plates, allowing users to create a mobile workstation that takes advantage of the GDS® Ecosystem™ for data sync and charging capabilities. This two-point capacitive touchscreen monitor allows you to pinch, zoom, and select—and includes an anti-glare and anti-fingerprint treatment. Two integrated 2W speakers allow for audio and HDMI, VGA, and USB Type-B to USB Type-A cables are included. To ensure performance in the most demanding environments, the GDS® View™ touchscreen monitor has undergone MIL-STD-810G 514.5 vibration testing.

RAM-GDS-MON-13-1
